

Biophysical Screening Workshop

& Dianthus hands-on

INTRODUCTION:

We would like to invite you to the workshop focused on high-throughput interaction screening using the Isothermal Spectral Shift technology. Researchers from both the academia and industrial sector will find out how you can increase the efficiency of your research during technical seminars. During hands on session, participants can learn about the newest impact screening platform Dianthus using Isothermal Spectral Shift technology and they will have an opportunity to test their samples using Dianthus and PR Panta instruments. The workshop is organized in collaboration with NanoTemper Technologies.

PRELIMINARY PROGRAM:

Thursday 7th September

08:30-09:00 Registration
09:00-09:15 Welcome and Introduction
09:15-10:15 Seminar part I
10:15-12:00 Seminar part II
13:00-17:00 Hands-on session

Friday 8th September

09:00-09:45 Seminar part I
09:45-10:30 Seminar part II
10:30-17:00 Hands-on session
